Important notice

In light of the continuing impact of the coronavirus (COVID-19) pandemic, all foreign nationals traveling to Iran on a valid visa must present documentation of negative results from a molecular biological COVID-19 test upon entry to the country. Test results will only be considered valid for 96 hours from the time of testing.

In the event that the following requirements are not met, you will be subject to a two-week quarantine and will be responsible for all incurred costs.
